An illustration depicting digital security concepts. A large blue smartphone is the central focus, with a woman in an orange shirt holding a smaller phone in front of it. The phone screen shows icons for messages, email, a graph, a gear, and a folder. A man in an orange shirt sits on top of the large phone using a laptop. Another man in an orange shirt sits on the ground to the left, also using a laptop. The background features a blue cityscape, a car, and various wireless signal icons.

A person wearing a full-body white protective suit (hazmat suit) with a hood, safety goggles, and a white respirator mask. They have their arms crossed and are standing in a brightly lit, possibly industrial or laboratory, environment. The background is slightly blurred, showing some structural elements and lights.
