Mendeley - Introduction

- Mendeley is a reference management software. There are 3 applications that need to be observed by the researchers:

- 1 • Mendeley Desktop
- 2 • Mendeley Web
- 3 • Mendeley Importer

<http://www.mendeley.com/download-mendeley-desktop/>

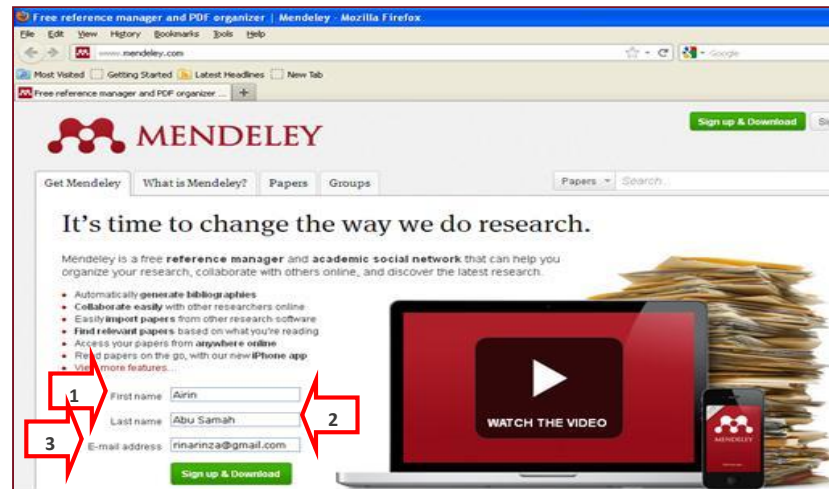

Mendeley Desktop - Registration

1) Go to

<http://www.mendeley.com/download-mendeley-desktop/>

2) Fill-up necessary information

Mendeley Desktop - Registration

3) Fill-up the details

The screenshot shows the registration process for Mendeley Desktop. It is divided into three steps: 1. Create a free account, 2. Tell us your interests, and 3. Start using Mendeley. The current step is 'Tell us your interests', which includes a password field, a dropdown for 'What's your field of study?', and another dropdown for 'What's your academic status?'. A green 'Download Mendeley' button is visible below the form. At the bottom, there are links for 'Already have an account? Sign in' and '...or create an account with Facebook'.

2

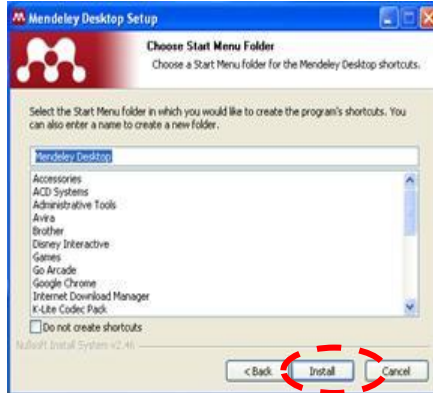

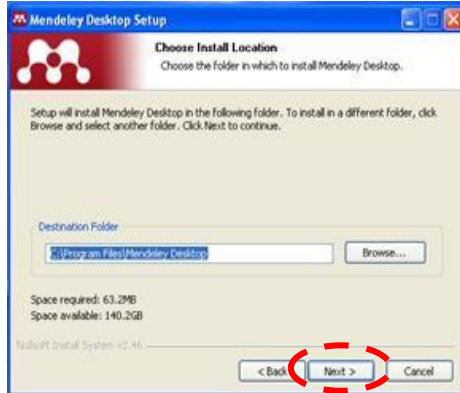

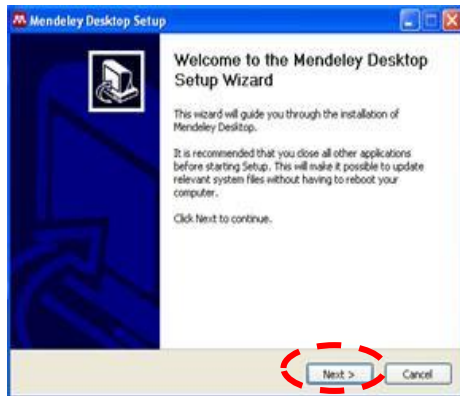

3

4) In the progress of downloading... if not successful click 'restart the download'

Mendeley Desktop - Registration

5) Follow the instruction as below:

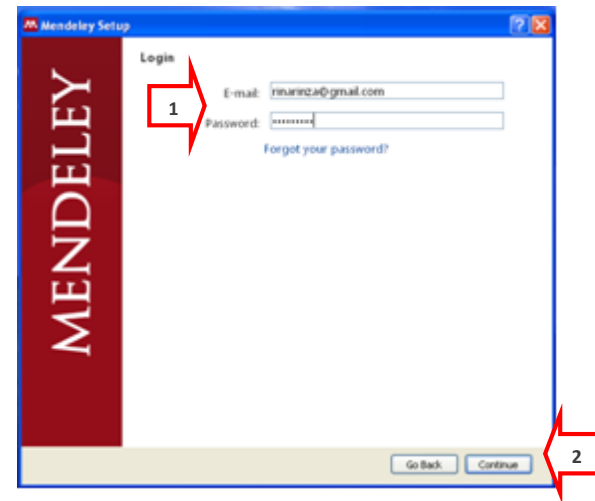

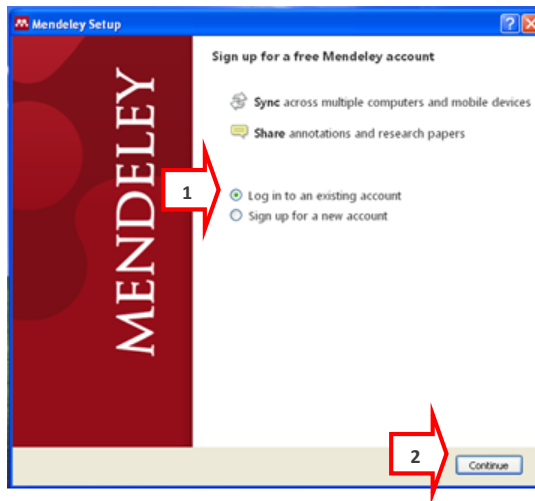

Mendeley Desktop - Start to Use

- 1) Using the icon at Desktop – double click

- 2) Click and fill-up necessary information

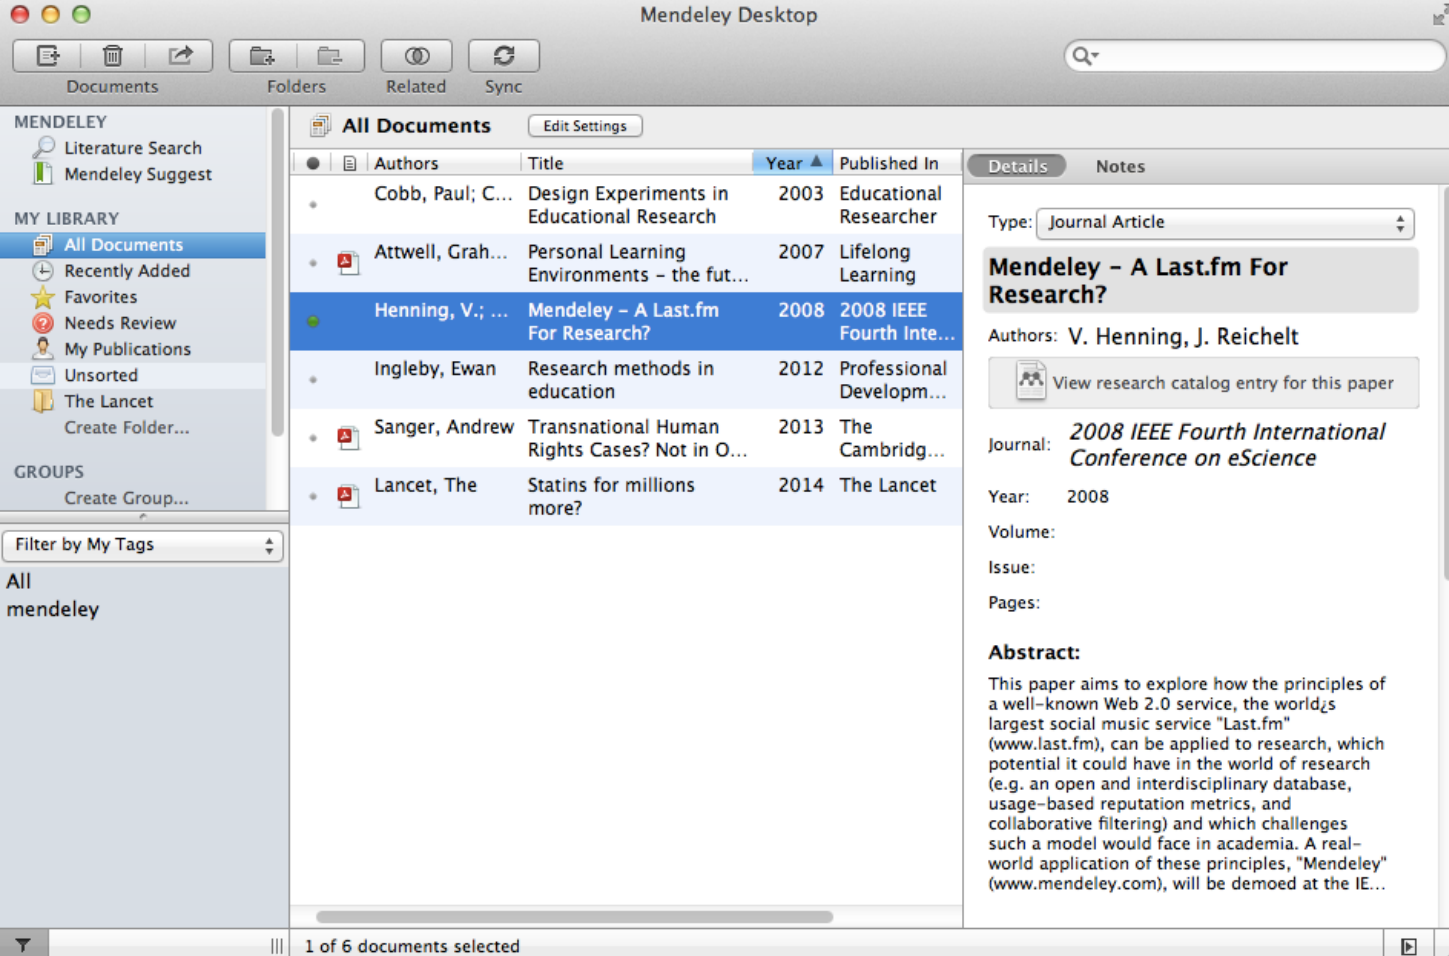

Organize

Setting Up Your Library

Mendeley Desktop overview

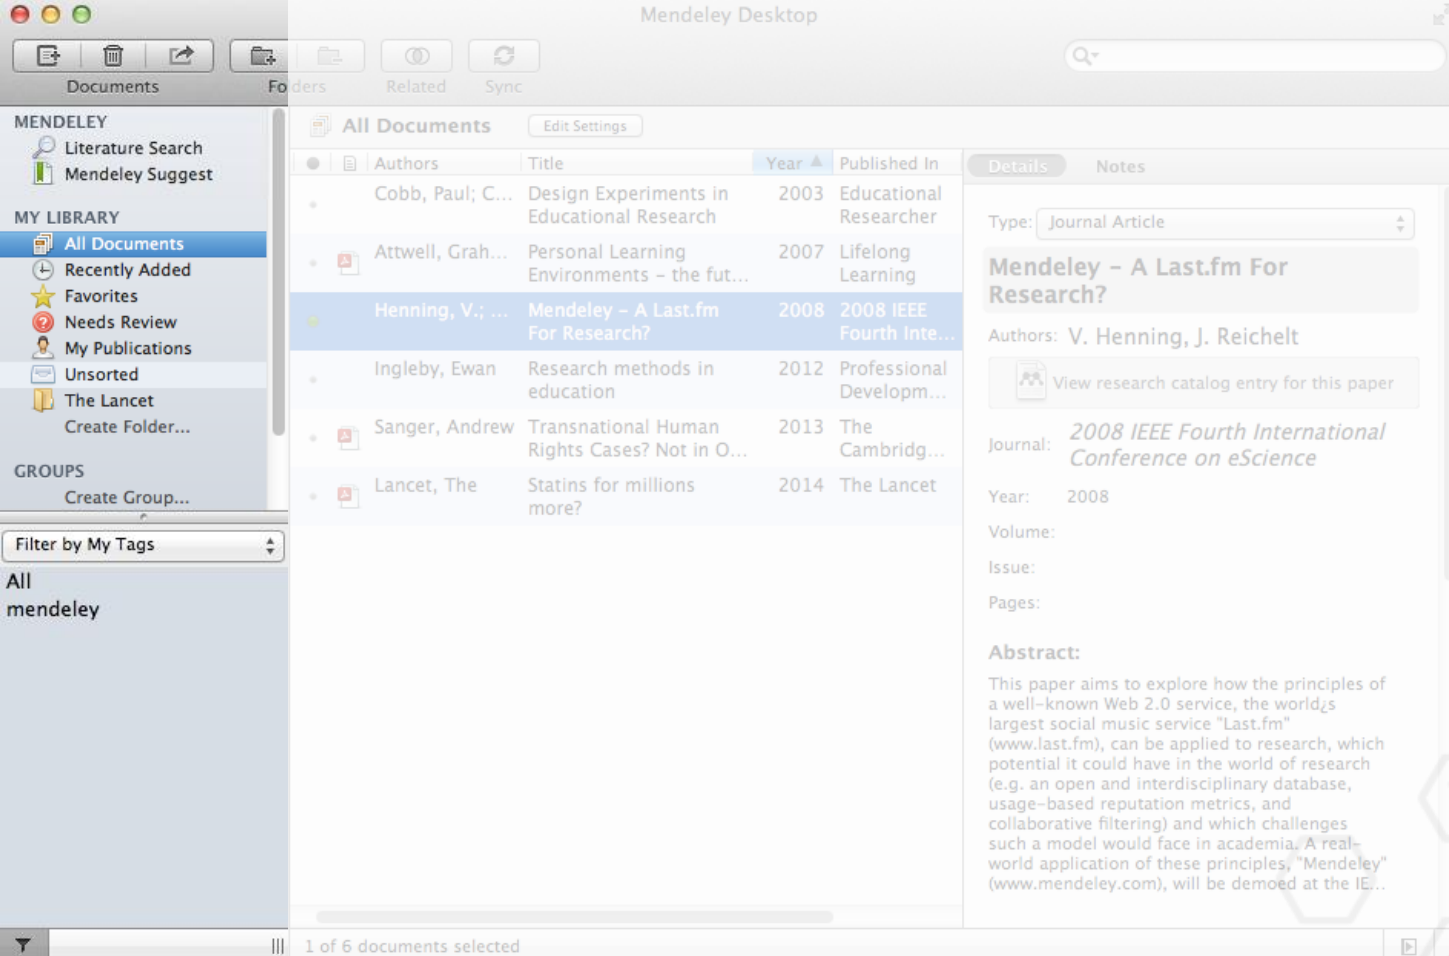

The screenshot shows the Mendeley Desktop application window. The interface is divided into several sections:

- Top Bar:** Contains window control buttons (red, yellow, green), a search bar, and navigation icons for Documents, Folders, Related, and Sync.
- Left Sidebar:**
 - MENDELEY:** Literature Search, Mendeley Suggest.
 - MY LIBRARY:** All Documents (selected), Recently Added, Favorites, Needs Review, My Publications, Unsorted, The Lancet, Create Folder...
 - GROUPS:** Create Group...
 - Filter by My Tags:** A dropdown menu currently showing "All mendeley".
- Main Document List:** A table with columns: Authors, Title, Year, and Published In.

Authors	Title	Year	Published In
Cobb, Paul; C...	Design Experiments in Educational Research	2003	Educational Researcher
Attwell, Grah...	Personal Learning Environments - the fut...	2007	Lifelong Learning
Henning, V.; ...	Mendeley - A Last.fm For Research?	2008	2008 IEEE Fourth Inte...

Behavioral Arousal Effects of Small Doses of Nicotine.

Authors: D. Klimov, D. Thirumalai

Journal: *Folding & design*

Year: 1998

Volume: 3

Issue: 2

Pages: 127-39

Abstract:
Over the past few years novel folding mechanisms of globular proteins have been proposed using minimal lattice and off-lattice models. The factors determining the cooperativity of folding in these models and especially their explicit relation to experiments have not been fully established, however.

Mendeley adds missing info automatically

Mendeley Desktop - Manage References

- Review the details of all the references that have been included. Compare, review and update the information on the right side panel, all information starting from Type, Title, Authors, Journal name, Year, Volume, Issue, Pages, Abstract (can copy and paste from an existing file), keywords, URL, DOI and other particulars.

Web Importer

Save research while browsing online

How it works

1. Drag the "Save To Mendeley" button to your Bookmarks Bar

Can't see your Bookmarks Bar?

2. Find an article

Search for articles in a wide variety of sites, such as those listed below.

3. Click the "Save to Mendeley" bookmark

Click the "Save to Mendeley" bookmark you just created, and the article details will display on the right hand side of the page.

4. Review the details and Save

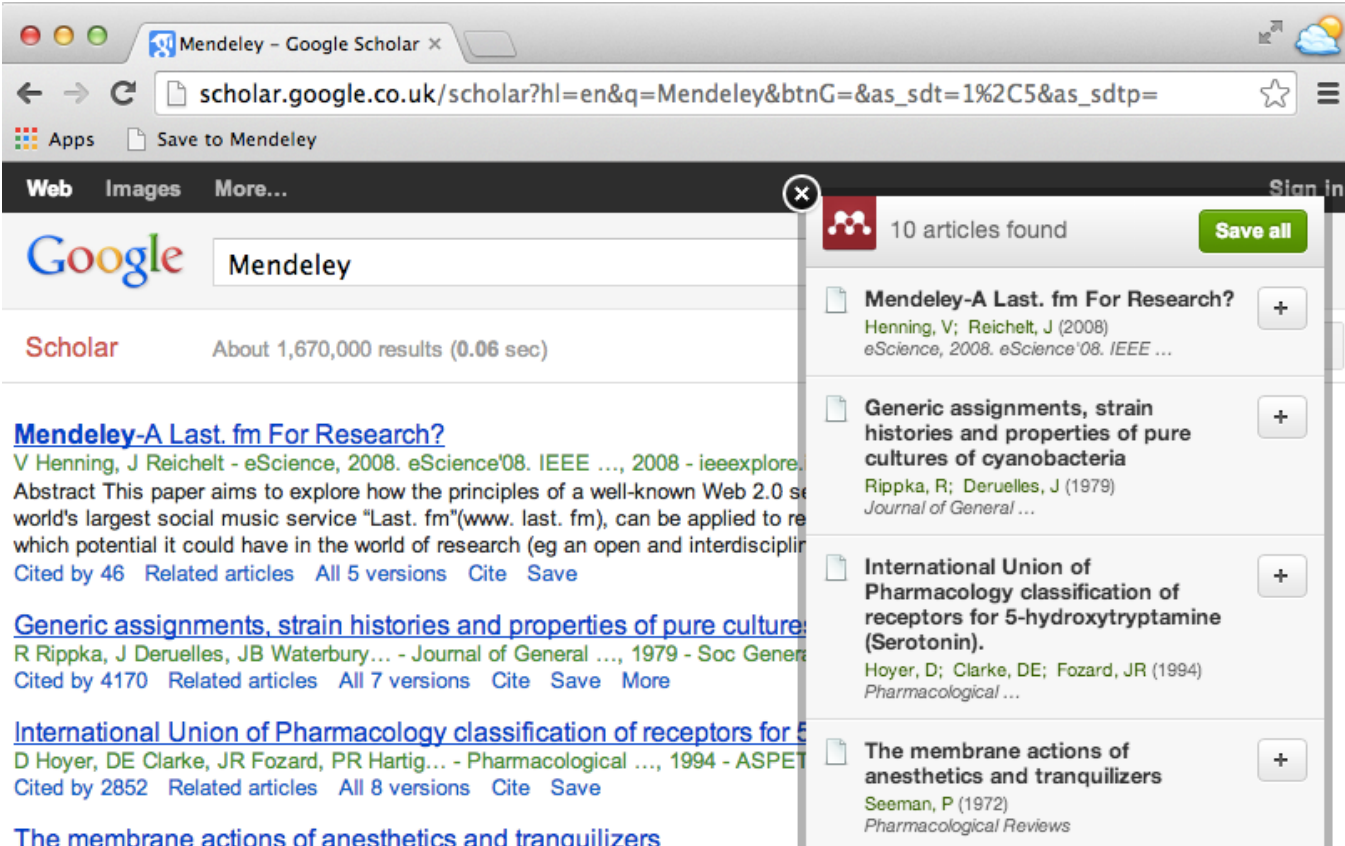

If the details look ok, click the "Save" button.

Next time you sync Mendeley Desktop, any newly saved articles will appear in the "Recently Added" section.

Using the Web Importer

Click 'Save to Mendeley' to import references from your search results

The screenshot shows a web browser window with the address bar containing the URL: `scholar.google.co.uk/scholar?hl=en&q=Mendeley&btnG=&as_sdt=1%2C5&as_sdt=`. The browser's address bar includes a 'Save to Mendeley' button. The search results for 'Mendeley' are displayed, showing about 1,670,000 results. A Mendeley Web Importer popup is overlaid on the search results, showing a list of 10 articles found. The popup includes a 'Save all' button and a list of article titles and authors.

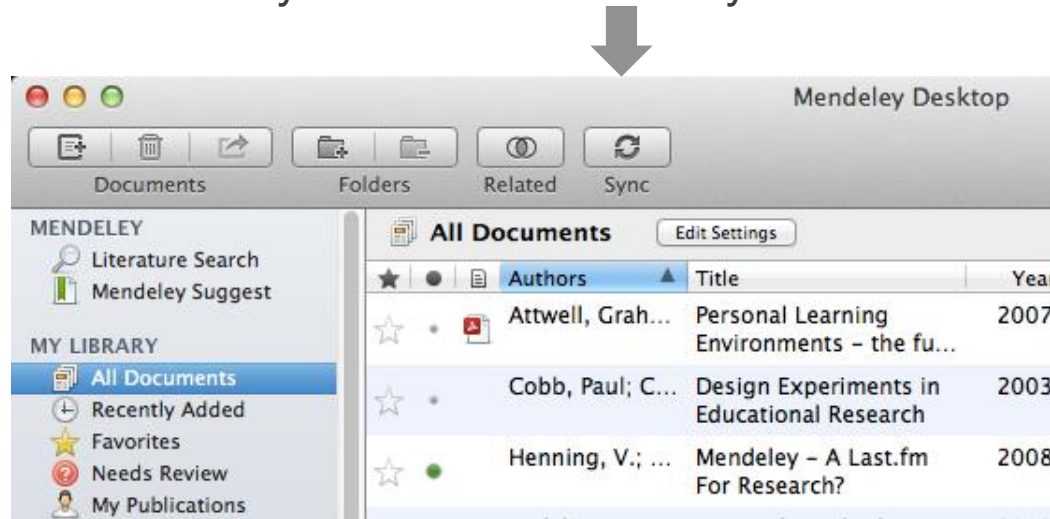

Articles listed in the Mendeley Web Importer popup:

- Mendeley-A Last. fm For Research? (Henning, V; Reichelt, J (2008))
- Generic assignments, strain histories and properties of pure cultures of cyanobacteria (Rippka, R; Deruelles, J (1979))
- International Union of Pharmacology classification of receptors for 5-hydroxytryptamine (Serotonin). (Hoyer, D; Clarke, DE; Fozard, JR (1994))
- The membrane actions of anesthetics and tranquilizers (Seeman, P (1972))

Select an article and import the reference to your library in one click.

Sync

Sync your library to the Mendeley Cloud to access it anywhere & read on all your devices

Perspective

Why Full Open Access Matters

Michael W. Carroll*
American University, Washington, D.C., United States of America

Scientific authors who pay to publish their articles in an open-access publication should be congratulated for doing so. They also should be aware that they may not be getting full open access from some publications that charge for publication under the "open access" label. Two features define an open-access publication: (1) the published contents are freely accessible through the Internet, and (2) readers are given copyright permission (see Box 1) to republish or reuse the content as they like so long as the author and publisher receive proper attribution [1]. Recently, some publications have begun offering an open-access option that charges for Internet publication without granting readers full reuse rights, such as Springer's Open Choice or Nature's Scientific Reports. These publishers have adopted a business model through which authors pay for immediate publication on the Internet but the publisher nonetheless keeps commercial reuse rights for itself. This is not full open access (see Box 2).

Getting open access right matters because the new publishing model is designed to increase the pace and impact of scientific communication through the power of the Internet. Immediate, free publication increases the audience for scientific research and overcomes the increasingly high price barrier to access imposed by the traditional.

is to shift from a model that uses copyright to control reuse of content to one that uses copyright to encourage republication, preservation, and translation.

Why Support the Open-Access Financial Model?

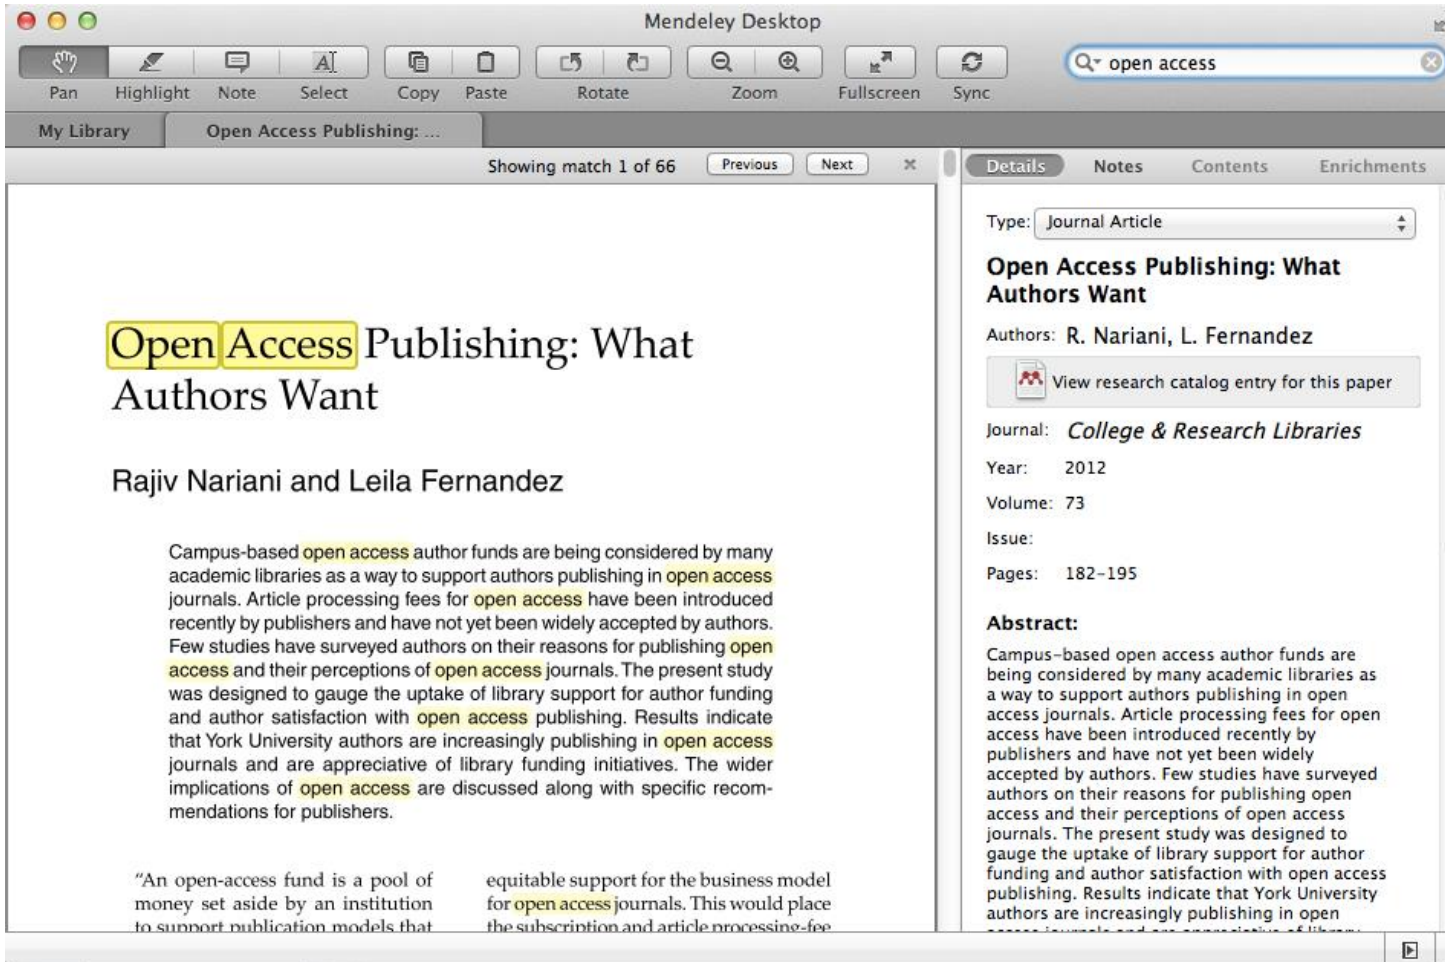

Pricing of traditional, subscription-financed scientific journals is highly inefficient. The growth in digital technologies and in digital networks should be driving down the price of access to the scholarly journal literature, but instead prices have increased at a rate greatly in excess of inflation (e.g., [4,5]). Moreover, studies from journal publishing in some disciplines show that commercial journal publishers successfully charge significantly more than non-commercial journal publishers, such as scholarly societies, even when the commercial offerings make less valuable contributions to the progress of science and knowledge as measured by citations (e.g., [6]).

The economic roots of the pricing problem are not difficult to discern. Journal publishers provide a platform between authors of journal articles and their readers. In these situations, the go-between can choose a mix of prices to each side of the relationship, usually charging more to the party that is more dependent on the go-between. The tradi-

their demand is relatively inelastic for two reasons. First, libraries are mission-driven to acquire as broad a swath of the literature as they can afford to serve their patrons effectively. Second, subscriptions for academic journals within a given field are not readily interchangeable, unlike, say, subscriptions to news magazines, because each academic journal publishes unique research. Having their subscribers over a barrel, commercial publishers have steadily consolidated to reduce their costs while increasing profits through uncompetitive pricing [7].

The open-access model fundamentally shifts the balance of power in journal publishing, and thereby greatly enhances the efficiency and efficacy of scientific communication. In its most common form, the model shifts the costs of publication entirely to the author-funder side of the relationship so as to broaden access as far as the Internet reaches and to remove the need for any lingering usage barriers. By shifting the costs of publication entirely to the author-funder side, journals must compete head-to-head on quality and price without diminishing impact through price or usage barriers because authors have greater choice over where to publish than libraries have over whether to subscribe. This increased competition will reduce the overall costs

Read and Work in the PDF Viewer

The screenshot shows the Mendeley Desktop application window. The title bar reads "Mendeley Desktop". The menu bar includes "Pan", "Highlight", "Note", "Select", "Copy", "Paste", "Rotate", "Zoom", "Fullscreen", and "Sync". A search bar in the top right contains the text "open access". Below the menu bar, there are tabs for "My Library" and "Open Access Publishing: ...". The main content area displays a PDF document with the title "Open Access Publishing: What Authors Want" and authors "Rajiv Nariani and Leila Fernandez". The text in the PDF is highlighted in yellow. The right sidebar shows the document's metadata, including the type "Journal Article", authors "R. Nariani, L. Fernandez", journal "College & Research Libraries", year "2012", volume "73", and pages "182-195". An abstract is also visible in the sidebar.

Open Access Publishing: What Authors Want

Authors: R. Nariani, L. Fernandez

 View research catalog entry for this paper

Journal: *College & Research Libraries*

Year: 2012

Volume: 73

Issue:

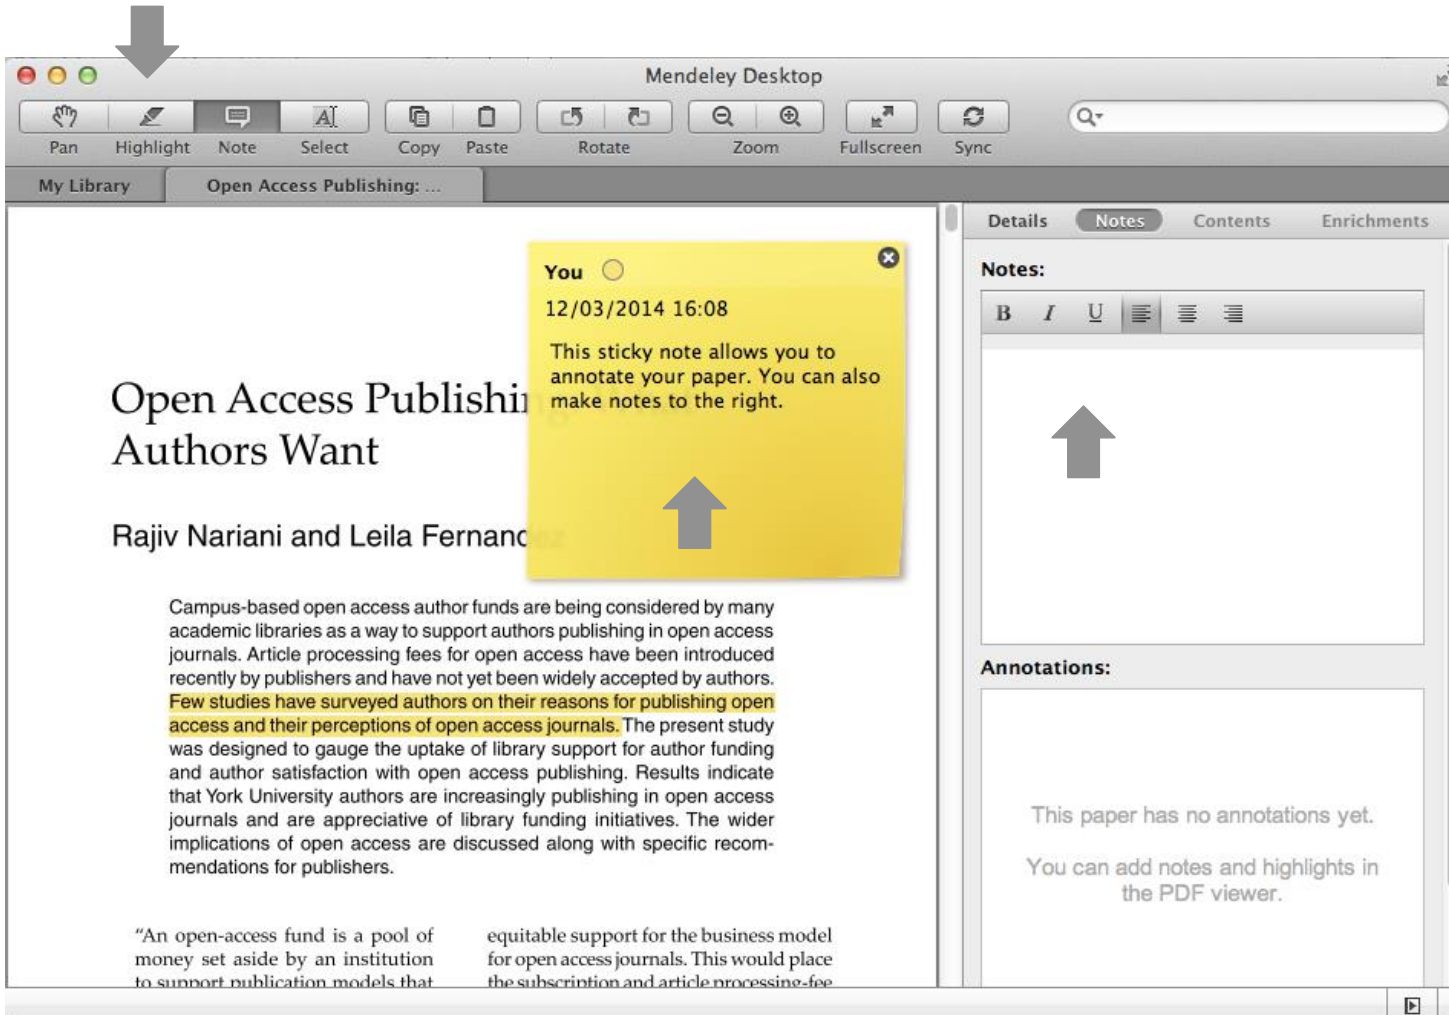

Pages: 182-195

Abstract:

Campus-based open access author funds are being considered by many academic libraries as a way to support authors publishing in open access journals. Article processing fees for open access have been introduced recently by publishers and have not yet been widely accepted by authors. Few studies have surveyed authors on their reasons for publishing open access and their perceptions of open access journals. The present study was designed to gauge the uptake of library support for author funding and author satisfaction with open access publishing. Results indicate that York University authors are increasingly publishing in open access journals and are appreciative of library funding initiatives. The wider implications of open access are discussed along with specific recommendations for publishers.

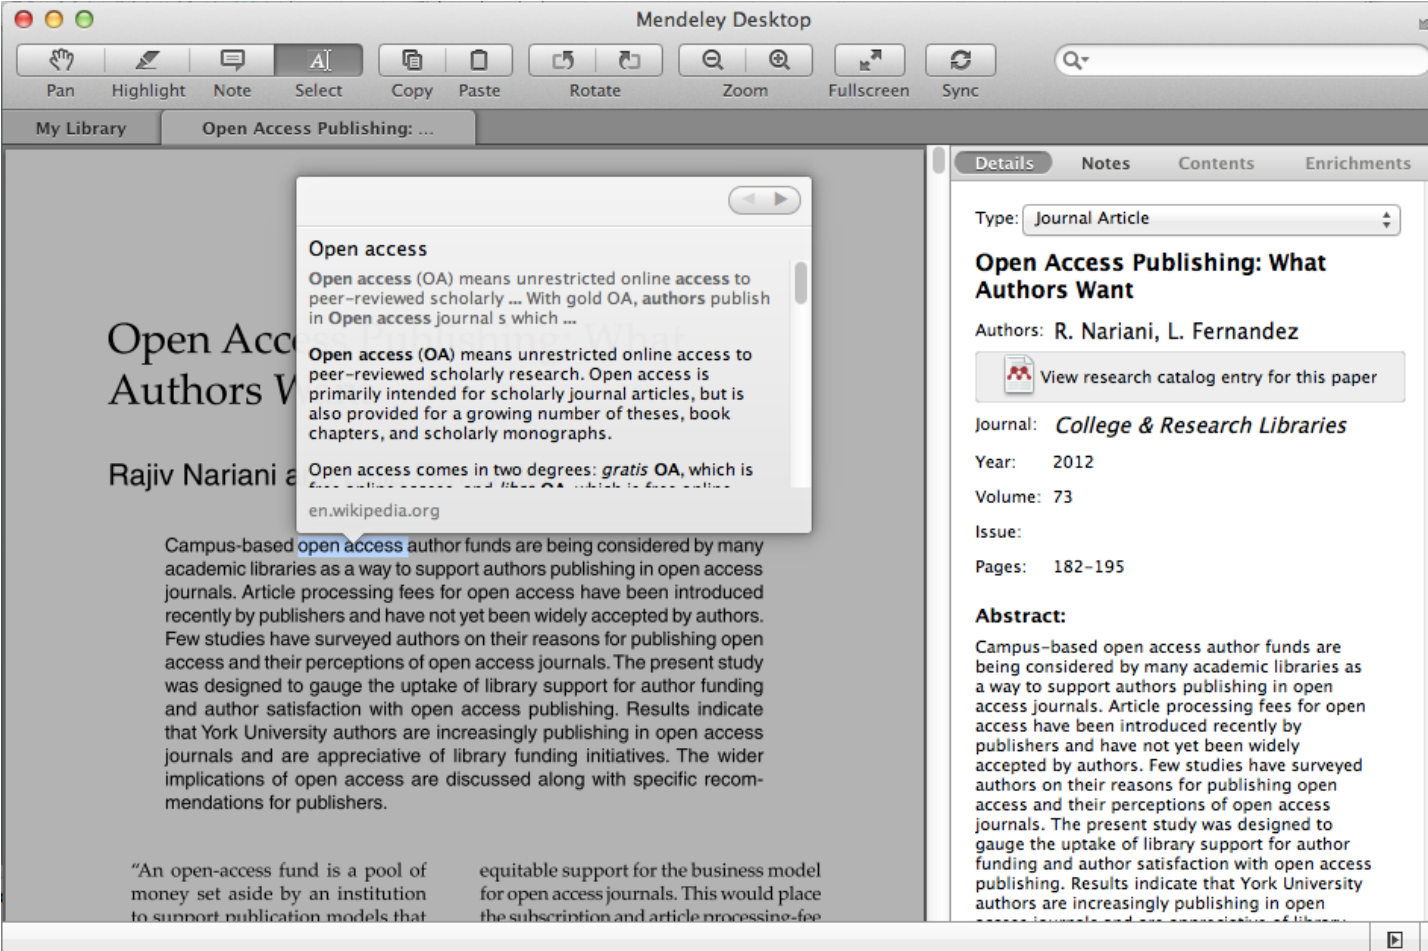

"An open-access fund is a pool of money set aside by an institution to support publication models that equitable support for the business model for open access journals. This would place the subscription and article processing-fee

Annotate and Highlight

The screenshot displays the Mendeley Desktop application window. The title bar reads "Mendeley Desktop". The menu bar includes "Pan", "Highlight", "Note", "Select", "Copy", "Paste", "Rotate", "Zoom", "Fullscreen", and "Sync". The main content area shows a document titled "Open Access Publishing Authors Want" by Rajiv Nariani and Leila Fernand. A yellow sticky note is overlaid on the document, containing the text: "You 12/03/2014 16:08 This sticky note allows you to annotate your paper. You can also make notes to the right." The right-hand side of the window features a "Notes" panel with a text input area and a "Annotations" section. The "Annotations" section contains the text: "This paper has no annotations yet. You can add notes and highlights in the PDF viewer." The document text includes a highlighted sentence: "Few studies have surveyed authors on their reasons for publishing open access and their perceptions of open access journals." The bottom of the document shows a quote: "An open-access fund is a pool of money set aside by an institution to support publication models that equitable support for the business model for open access journals. This would place the subscription and article processing fee..."

Look Up Term Definitions

The screenshot shows the Mendeley Desktop application window. The title bar reads "Mendeley Desktop". The menu bar includes "Pan", "Highlight", "Note", "Select", "Copy", "Paste", "Rotate", "Zoom", "Fullscreen", and "Sync". The main window is divided into two panes. The left pane shows a document titled "Open Access Publishing: What Authors Want" by Rajiv Nariani et al. A tooltip is displayed over the text "Open access", providing a definition: "Open access (OA) means unrestricted online access to peer-reviewed scholarly research. Open access is primarily intended for scholarly journal articles, but is also provided for a growing number of theses, book chapters, and scholarly monographs. Open access comes in two degrees: *gratis* OA, which is free online access and *libre* OA, which is free online access." The right pane shows the "Details" tab for the document, including the type "Journal Article", authors "R. Nariani, L. Fernandez", journal "College & Research Libraries", year "2012", volume "73", and pages "182-195". An abstract is also visible in the right pane.

Open access
Open access (OA) means unrestricted online access to peer-reviewed scholarly research. Open access is primarily intended for scholarly journal articles, but is also provided for a growing number of theses, book chapters, and scholarly monographs.
Open access comes in two degrees: *gratis* OA, which is free online access and *libre* OA, which is free online access.

The screenshot shows the Mendeley Desktop interface. The main window displays a document with several paragraphs of text. A yellow sticky note is attached to the text, containing the following text:

William Gunn
2011-04-13 9:25 AM

Counterintuitively, by not enforcing a top-down ontology first, they got to structured data faster.

The right-hand pane shows a list of annotations with the following details:

Annotation ID	Author	Page no.	Date	Location	Text
01	Jess Mezel	Page no. 1	14/04/11 12:36	Research Gone Social	Can academia learn something from the worlds largest social music network and can its principles be applied to research?
02	Script Three	Page no. 1	12/04/11 23:33	Research Gone Social	This would ultimately change how research is done
03	William Gunn	Page no. 1	13/04/11	Research Gone Social	Counterintuitively, by not enforcing a top-down ontology first, they got to structured data faster.
04	You	Page no. 1	13/04/11 03:12	Research Gone Social	The more data is added to such a database would render the subsequent recommendation and real-time stats extremely useful.
05	William Gunn	Page no. 1	13/04/11 13:24	Research Gone Social	This approach is in contrast to other services which try to copy the Facebook model and pull real-world relationships into an online service.
06	Miji Arianna Choi	Page no. 2

Discipline summary

Biology is the study of life. It attempts to understand the structure, function, processes and evolution of living organisms and how they relate to their environment. Modern biology covers a wide variety of fields and is highly interdisciplinary, drawing on advances in areas such as computer science, mathematics, psychology. Because biology is such a broad subject, it is subdivided according to the ...

Literature Search

Search the catalogue

The screenshot shows the Mendeley Desktop application window. The title bar reads "Mendeley Desktop". The interface is divided into several sections:

- Left Sidebar:** Contains "MENDELEY" (Literature Search, Mendeley Suggest), "MY LIBRARY" (All Documents, Recently Added, Favorites, Needs Review, My Publications, Unsorted, The Lancet, Create Folder...), and "GROUPS" (Create Group...). Below this is a "Filter by Authors" dropdown menu with a list of authors including Andrews, J.G., Aycock, Mary, Bailey, Charles W., Benson, Philippa J., Björk, Bo Christer, Brody, Tim, Carr, Les, Carroll, Michael W., Chandrasekhar, V., Collins, Maria, Cryer, Emma, and Evans, James A.
- Search Bar:** Located at the top of the main pane, containing the text "Open Access".
- Search Results:** A list of search results with checkboxes and download icons. The selected result is "Why full open access matters" by Michael W. Carroll - 2011 - PLoS Biology.
- Details Panel:** On the right, showing tabs for "Details", "Notes", "Contents", and "Enrichments". It displays a message: "This document is not in your library" with a "Save PDF" button. Below this, it shows the article's type (Generic), title ("Why full open access matters"), author (M. Carroll), year (2011), and pages. An "Abstract" section follows, explaining the mechanics of copyright and scholarly publishing. There are also sections for "Tags" and "Author Keywords".

Search the Catalog Online

The screenshot shows the Mendeley Papers search interface. At the top, there are navigation tabs for Dashboard, My Library, Papers, Groups, and People. The 'Papers' tab is selected. Below the navigation is a search bar with the placeholder text 'Search papers...' and a search icon. Below the search bar, there is a text input field containing 'eg: scientific impact measures' and a button labeled 'Advanced search'. Below the search bar, there are two buttons: 'Popular' (selected) and 'Latest'. Below the buttons, there are two paper listings. The first listing is 'How To Choose a Good Scientific Problem' by Uri Alon in *Molecular Cell* (2009). The second listing is 'Whitesides' Group: Writing a Paper' by G M Whitesides in *Advanced Materials* (2004). Each listing includes a brief description and the number of readers.

How To Choose a Good Scientific Problem
Uri Alon in *Molecular Cell* (2009)

Choosing good problems is essential for being a good scientist. But what is a good problem, and how do you choose one? The subject is not usually discussed explicitly within our profession. Scientists are expected to be smart enough to figure it out...

The screenshot shows the Mendeley web interface for a research article titled "How to choose a good scientific problem." by Uri Alon. The interface includes a navigation bar with "Dashboard", "My Library", "Papers", "Groups", and "People". A search bar is located in the top right. The article details include the journal "Molecular Cell" (2009), Volume 35, Issue 6, and PubMed ID: 19782018. A "Save PDF to library" button is visible. A dropdown menu is open, showing options to find the paper at various sources like Columbia University, New York University, and WorldCat. A "Related research" section lists other articles, and a "Readership Statistics" section shows data by discipline and country.

The screenshot shows the Mendeley Blog homepage. At the top left is the Mendeley logo and the text "MENDELEY BLOG". Below this are navigation tabs: "Get Mendeley", "What is Mendeley?", "Papers", and "Groups". The main content area features a featured article titled "Mendeley Year in Review 2013" dated 19 December 2013 by Joao Bernardino. The article text mentions Mendeley's collaboration with the Syrian Research Exchange and its recognition as a "Best Startup Founder" at the Europas. A small photo of three men is included. Below the text is a world map. On the right side of the blog, there is a "Subscribe to blog updates" section with a "SIGN UP FOR FREE" button and a note that the software is available for Windows, Mac OS X, and Linux.

The screenshot shows the Mendeley Resources page. At the top left is the Mendeley logo and the text "MENDELEY RESOURCES". Below this are navigation tabs: "Guides", "Videos", and "Support". The main content area is titled "Help Guides" and includes the text "Browse these fully packed guides to help you quickly get started with Mendeley." There are four guide cards: "Desktop" (red), "Web" (green), "iOS (Coming Soon)" (grey), and "DEVELOPERS PORTAL" (dark blue). Below the guides is a section titled "Videos, Tips & Tricks" with the text "Learn quickly how to use Mendeley features with these short videos, tips and tricks." and a "View all videos" link. There are two video thumbnails: "How to import your documents (2:05)" and "How to organize your documents (3:10)".
