

**WORKSHEETS (LEMBAR KERJA)**

<b>Mata Kuliah</b>	: <b>Anatomi</b>
<b>Materi</b>	: <b>Anatomi Syaraf</b>
<b>NIM&gt;Nama Mahasiswa</b>	: <b>2110101046/Oktaviana Rahmawati</b>

No	Keterangan
1	<p>Pembagian sistem syaraf</p> <ul style="list-style-type: none"> <li>a) sistem syaraf pusat Sistem syaraf pusat (otak,sumsum tulang belakang)</li> <li>b) Susunan syaraf Perifer Sistem saraf tepi (syaraf kranial dan syaraf spinal)</li> </ul>
	<p>Sebutkan 2 jenis sel pembangun sistem</p>
	<p>The diagram shows a single neuron with various parts labeled. On the left, there are several branching structures labeled 'Dendrit'. In the center is the 'Badan sel' (cell body) containing a green 'Nukleus' (nucleus). A long 'Akson' (axon) extends to the right, covered by 'Selubung mielin' (myelin sheath) segments. Small gaps between these segments are labeled 'Modus ranvier'. The axon ends in 'Axon Terminal' structures, which are shown forming 'Terminal sinapsis' (synapses).</p>
	<p>Otak terdiri dari otak besar (cerebium), otak kecil (cerebellum) Dan batang otak (brainstem) 4 lobus pada cerebrum Adalah lobus frontal, lobus oksipital, lobus temporal dan lobus parietal.</p>

No	Keterangan	Pembahasa
		 <p>Diagram of the human brain with the following labels: Serebrum, Frontal lobe, Parietal lobe, Talamus, Occipital lobe, Hipotalamus, Temporal lobe, Pons, Medulla oblongata, Cerebellum, and Dienchepalon.</p>
		 <p>Diagram showing the layers of the meninges and the brain. Labels include: Durameter, Arachnoid, Piameter, and Otak.</p>
Lobus		 <p>Diagram of the four lobes of the brain: Frontal lobe, Parietal lobe, Occipital lobe, and Temporal lobe.</p>

No	Keterangan	Pembahasan
