No	Keterangan	Pembahasan
1	<p>An anatomical diagram of the human respiratory system. It shows the nasal cavity leading to the pharynx, which branches into the trachea and esophagus. The trachea leads to the bronchi, which branch into bronchioles and finally reach the lungs (paru-paru kanan and paru-paru kiri). The lungs are surrounded by the pleura, and the diaphragm is located at the base of the thoracic cavity. Labels with leader lines point to each of these structures.</p>
