1		 <p>The diagram illustrates the human respiratory system. It shows the nasal cavity (Rongga hidung) leading to the pharynx (Faring), then the larynx (Laring) and trachea (Trakea). The trachea branches into bronchi (Bronchus) and bronchioles (Bronkiolus), which further divide into bronchioles (Bronkeolus) and finally reach the lungs (Paru-paru kanan and Paru-paru kiri). The lungs are surrounded by the pleura (Pleura). The diaphragm (Diafragma) is shown at the base of the thoracic cavity.</p>
