1		 <p>This diagram shows a cross-section of the heart wall and its internal chambers. The layers of the heart wall are labeled as follows: Endocardium (innermost), Myocardium (middle), and Epicardium (outermost). The chambers shown are the Right Atrium, Left Atrium, Ventrikel Kanan (Right Ventricle), and Ventrikel Kiri (Left Ventricle). The Interventricular Arseptum (Septum) is also labeled, separating the two ventricles.</p>
		 <p>This diagram provides a detailed view of the heart's internal structure, including major vessels and valves. The vessels shown are the Vena Kav Superior (Superior Vena Cava), A. Pulmonalis dekstra (Right Pulmonary Artery), Pulmonalis veins (Pulmonary Veins), and Inferior Vena Cava (Inferior Vena Cava). The major vessels exiting the heart are the Aorta and Pulmonary Arteri (Right Pulmonary Artery). The valves shown are the Pulmonary valve, Mitral valve, and Tricuspid Valve. The chambers shown are the Right Atrium, Left Atrium, Right ventricle, and Left Ventricl (Left Ventricle). The Cardiac Muscle is also labeled.</p>
