		 <p>The diagram illustrates the large intestine (colon) and its associated structures. The main components are labeled as follows:</p> <ul style="list-style-type: none"> Kolon Asendens: The ascending colon, located on the right side of the abdomen. Kolon transversum: The transverse colon, located across the upper abdomen. Kolon Desendens: The descending colon, located on the left side of the abdomen. Usus Buntu: The cecum, a pouch-like structure at the junction of the ascending and transverse colons. Rektum: The rectum, the terminal part of the large intestine leading to the anus.
